Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Lawrence G. Almeda on 11/22/04.

The application has been amended as follows:

- a. Line 2 of the abstract the phrase "The present invention comprises" has been deleted,
- b. Lines 9-10 of the abstract the phrase "of the present invention" has been deleted,
- c. Line 17 the word "means" has been replaced with "device".

REASONS FOR ALLOWANCE

2. Claims 1-40 are allowed because the prior art neither shows nor teaches a motor vehicle steering system comprises of a plurality of steer-by-wire mode wherein, in the steer-by-wire mode with rear steering the controller maintains the clutch mechanism in a disengaged state and the controller operates the driver interface system and the front and rear road wheel actuator system such that the motor vehicle is electronically steerable, and in the steer-by-wire mode without rear steering the controller maintains the clutch mechanism in a disengaged state and the controller operates the driver

interface system and the front road wheel actuator system such that the motor vehicle is electronically steerable, and in the EPAS mode with rear steering the controller causes the clutch mechanism to engage and selectively causes one of the road wheel actuator system or the driver interface system to provide electronic power assist steering while controlling the rear steering, and in the EPAS mode without rear steering the controller causes the clutch mechanism to engage and selectively causes one of the road wheel actuator system or the driver interface system to provide electronic power assist steering while deactivating the rear steering, and in the backup mode with rear steering, the controller causes the clutch mechanism to engage such that the motor vehicle is mechanically steerable while controlling the rear steering, and in the manual backup mode without rear steering, the controller causes the clutch mechanism to engage such that the motor vehicle is mechanically steerable while deactivating the rear steering .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
